

GTU Department of Computer Engineering
CSE 222/505 - Spring 2022
Homework 3 Report

Ömer Kaan Uslu
1801042642

1. SYSTEM REQUIREMENTS

1. Software Specification

Operating System : Windows 10 , macOS Catalina

Front End : Eclipse, Sublime Text

Rear End : Oracle SQL

Design Tool : UML

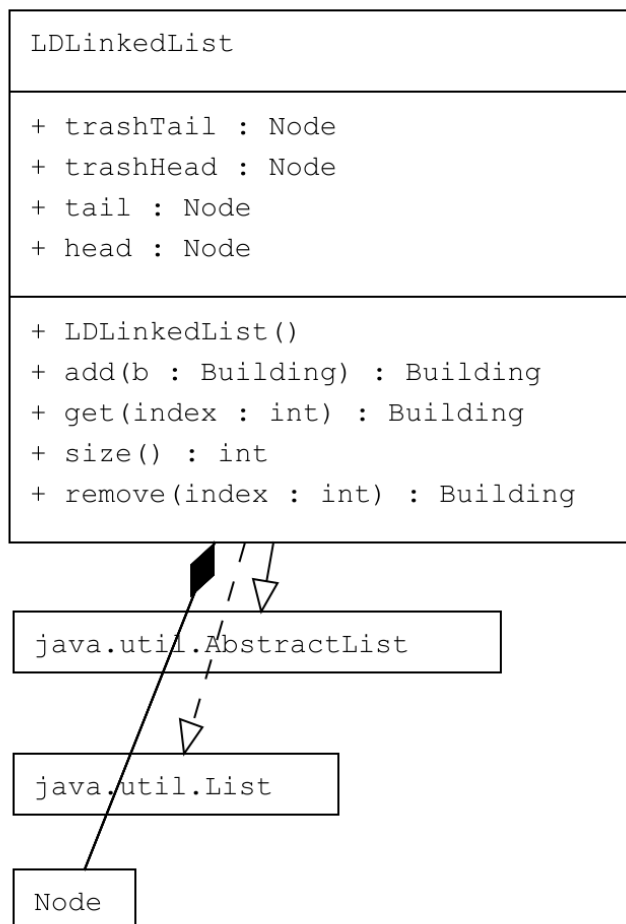

2. Hardware Specification

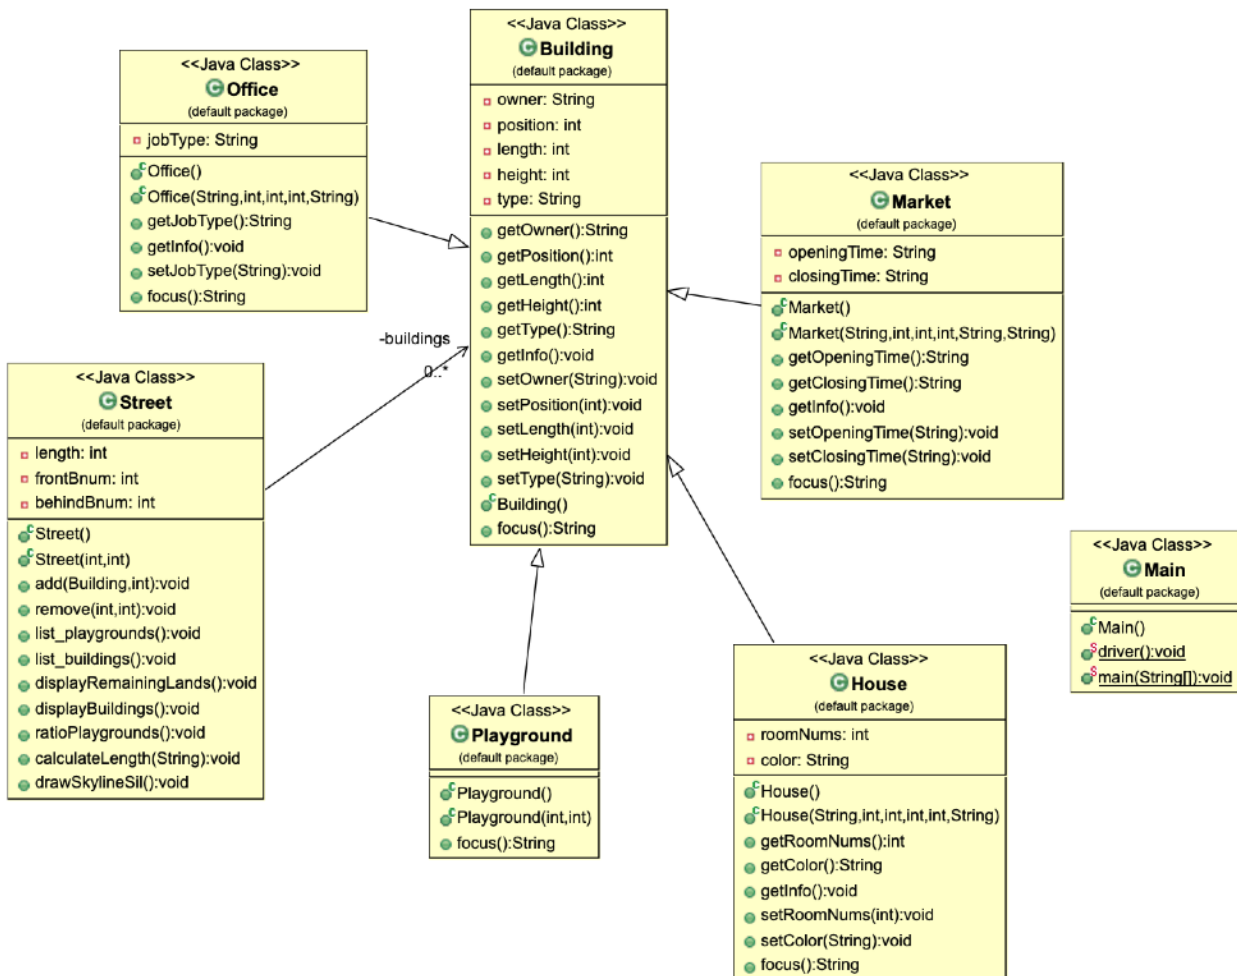

Processor : x86 processor

RAM : 512 MB or greater

Hard Disk : 20 GB or greater

2. USE CASE AND CLASS DIAGRAMS

3. PROBLEM SOLUTION APPROACH

First and Second part is clearly understandable and easy to apply. I simply use Collections Frameworks' Linked List and Array List specifications in Street Class' Building storing part. and use methods.

In third part, firstly I tried to write generic linked list which is type specified. And I did not continue with that approach and wrote an basic Building Linked List and it's method such as size, get etc.. In lazy deletion part I added LDLinkedList 2 extra Nodes. These are trashHead and TrashTail, in case of any removing item from linked list, removed element basically stored at the other tails which controlled by trashTail and trashHead.

In adding part, it controls whether parameter element is removed once, and do operation with respect that.

4. TEST CASES

Test Case No	Test Scenario	Test Steps	Test Data	Expected Result	Actual result	Pass/Fail
1	Add building with valid data	Run driver code	Position = 0 Length = 10	Building is added	As expected	Pass
2	Add building with invalid data	Run driver code	Position = -5 Length = 10	Building is not added	As expected	Pass
3	Remove building with valid data	Run driver code	Index = 1	Building is removed	As expected	Pass
4	Remove building with invalid data	Run driver code	Index = -5	Building is not removed	As expected	Pass

5. RUNNING AND RESULTS(All are same)

19.00
Yusuf
Mete
law

Silhoutte 1

Building No: (Front Side)0
Type: Market
Opening Time: 9.00
Closing Time: 19.00

Building No: (Front Side)1
Type: House
Room Number: 32
Color: black

Building No: (Back Side)0
Type: House
Room Number: 26
Color: blue

Building No: (Back Side)1
Type: Office
Job Type: law

Building No: (Back Side)2

Total remaining lands: 52
2
The numbers of playgrounds: 1
The ratio of length of playgrounds: 1.8181818
ba
ba
The total length of corresponding type House is: 42

2

Silhoutte 2
(After remove)

Building No: (Front Side)0
Type: Market
Opening Time: 9.00
Closing Time: 19.00

Building No: (Back Side)0
Type: House
Room Number: 26
Color: blue

Building No: (Back Side)1
Type: Office
Job Type: law

Building No: (Back Side)2

ba
The total length of corresponding type Market is: 4
